Mission of the
Nurse Anesthesia Area of Study

The mission of the University of Minnesota: Nurse Anesthesia Area of Study is to educate registered nurses to become Certified Registered Nurse Anesthetists with the highest degree of professional competency.

Philosophy of the
Nurse Anesthesia Area of Study

The University of Minnesota Nurse Anesthesia Area of Study seeks to prepare the graduate to function as a competent nurse anesthetist by active involvement as a member of the health care team. Through formal and informal guidance in the classroom, clinical and professional areas, the program seeks to demonstrate its concern for each student as an individual. By providing a Doctor of Nursing Practice, the University of Minnesota Nurse Anesthesia Area of Study strives to educate professionals who will become excellent clinical practitioners, as well as educators and leaders in the nursing community.

Purpose of the
Nurse Anesthesia Area of Study

The University of Minnesota Nurse Anesthesia Area of Study demonstrates devotion to the professional growth and development of the student registered nurse anesthetist (SRNA) and the promotion of safety, health and welfare in the care of patients. The University of Minnesota Nurse Anesthesia Area of Study faculty is dedicated to promoting clinical competence and independent decision-making among the students.

Objectives of the
Nurse Anesthesia Area of Study

The University of Minnesota: Nurse Anesthesia Area of Study strives to educate professionals who:

1. Integrate existing theoretical knowledge, current research, and clinical expertise into their practice.
2. Display a commitment to public accountability, with emphasis on providing high-quality care to all who seek their services.
3. Demonstrate the ability to contribute independently while working as a member of the anesthesia care team.
4. Recognize the responsibility to share their knowledge with patients, peers, and other professionals.
