

Class of August, 1958

Memories

- Coffee hours and fun times in Powell Hall
- Busy and intense
- Lugging a big suitcase on the city bus to get out to Glen Lakes Sanitorium for that rotation
- Rural and community health experiences and special Public Health classes that helped after graduating
- Remembering how difficult it was to do injections-finally, my instructor let me do it to her!
- Staying awake in class after working the night shift
- Challenging our instructor regarding the test results-the questions were ambiguous and could be taken several ways. Believe it or not, we usually were right!
- Participating in modern dance and putting shows together
- Dealing with old gallon water jugs for gastric suction
