Nursing Knowledge:
2016 Big Data Science Conference
June 1-3, 2016
Minneapolis, Minnesota
Registration open!
Early bird discount through April 1, 2016

Conference
June 2-3, 2016

Join nationally-recognized leaders from organizations, health systems, education and the private sector for the fourth-annual Big Data Conference in Minneapolis. Participants are engaged in advancing a national action plan to ensure that nursing data are captured in electronic health records and other information systems and that data are available in sharable, comparable formats for clinicians, administrators, researchers, policy makers and others to improve health outcomes. Learn about the accomplishments of the work groups, their importance to your work and how to build on these in the future.

Preconference
June 1, 2016

The preconference is for those wanting to learn more about the national agenda, see examples and gain hands-on experience. Participants will learn about using nursing data for big data science and the role it plays in the global agenda for improving health and health care.
